ESOK – Inclusive Higher Education
<http://esok.jyu.fi>

ESOK project 2006–2009

Promotes physical, psychological and social accessibility of teaching and learning in Finnish higher education institutions (HEIs).

Every student faces challenges.

Accessibility is especially important for students who

- experience learning difficulties
- are disabled
- are ageing
- belong to a cultural or linguistic minority
- experience anxiety in social situations.

Co-operation and good practice

ESOK project

- offers information on inclusion through a web portal
- develops guidelines and recommendations
- trains higher education staff and students
- endorses good practice
- participates in the pedagogical development of higher education
- initiates national co-operation of HEIs
- promotes collaboration between HEIs and non-governmental organisations

ESOK web site features case studies, best practices and news and events. It offers a platform to form partnerships for the promotion of inclusion. You and your organisation are welcome to join us.
